2025 SUMMER GEAR GUIDE

SURF GEAR

Gordon & Smith - The Squid

Ideal for sloppy to average waist to head high conditions, but can also handle larger / steeper conditions depending on the surfers experience. The Squid is a complete revamp of their 1st Generation Twin Fin from 1971. An Oz influenced model that was very popular, but faded away within a year due to improper fin templates and placement of the era. We kept the original template, but modernized the bottom contours and fin system. 965.
